

Ice maker Metos Cherry C54 A

MG4173192

The Metos C-series ice makers are efficient ice cube makers with their own ice container. The compact dimensions of the machines make them suitable for small spaces, as well as allows them to be installed below a surface. The machines produce clear, transparent ice cubes that help the drink stay cool longer. This is why the C-series' ice machines are perfect for bars, cafes, small restaurants and kiosks.

Special attention has been paid to the hygiene and ease of use in the design of the machines. The machines have an automatic washing system that ensures easy cleaning. The internal cleaning and maintenance of the machine is also effortless due to easy access. The frame of the machine is made of wear-resistant and easy-to-clean stainless steel. The controls of the machines work electronically, which allows the detection of malfunctions and can be used to determine the efficiency of the machine.
