Installation on top of the table

Drop-in Water dispenser Metos D-IWD mechanical

When constructing the counter, an opening for the connection cable must be considered. The opening must be at least the size of a plug (diameter min. 40 mm). In addition, the edges of the opening must be finished to make sure that the connection cable is not damaged by rubbing against the opening edge.

The counter, where drop-in units are installed, must be damp-proof and strong enough to bear the appliance weight.

Net weight:
D-IWD 28 kg
